Key words: Coleoptera, Cerambycidae, *Dorcadion*, new name, Turkey.

Abstract: *Dorcadion skoupyorum* **nom. nov.** is proposed to replace a junior homonym *Dorcadion skoupyi* Bernhauer & Peks, 2013, not *Dorcadion skoupyi* Lazarev, 2013.

Dorcadion scabricolle skoupyi Lazarev, 2013, true publications date 31 March 2013 is the senior primary homonym of *Dorcadion skoupyi* Bernhauer & Peks, 2013, 31 December 2013.

Thus the latter name is the invalid primary junior homonym of the former. Under these circumstances following the Principle of Homonymy (Code, Art. 52) we propose herewith to replace the invalid junior homonym by *Dorcadion skoupyorum* **nom. nov.** We regret having overlooked the older name.

It is convenient to repeat the basic data of the invalid name, valid by implications for the the replacement name:
