Pisanenko A.D., Alexandrovich O.R. Revision of *Staphylinidae* (*Coleoptera*) from N.M. Arnold's collection // Fauna and taxonomy: Proceed. Zool. museum Byel. Univ. — Minsk: Nauka i tekhnika 1995. Vol. I. P. 131—138.

Study of N. M. Arnold's collection which was collected in Mogilev region (E Belarus) in the second half of XIX Century and is preserved in Zoological Institute' AN of Russia (St. Petersburg) revealed 117 species of *Staphylinidae*. Twenty species from this collection were wrongly identified previously. List of the valid names, synonyms from Arnold's publication and number of specimens is reported.
