

16th Congress of the Russian Entomological Society
Moscow, August 22–26, 2022

The Fourth Information Letter

Dear Colleagues,

The Organizing Committee of the Congress has completed the acceptance of abstracts submitted to the XVI Congress of the Russian Entomological Society, and the Program Committee has considered the submitted abstracts and decided on the composition of the presentations of each section. The abstracts of 280 oral presentations and 81 poster presentations have been accepted to be presented during the work of each of the 15 sections (their list is given in the Third Information Letter). Given the difficult time during which we are preparing for the Congress, we will refund the registration fee to all those who will refuse to participate in the Congress before July 1. In this case, the abstracts will not be published in the collection. If you cancel your participation after July 1, we will not be able to refund the registration fee.
