

Distribution of *Cicadella lasiocarpae* Ossiannilsson, 1981 in Russia and Belarus (Homoptera: Cicadellidae)

D.A. Dmitriev

Dmitriev, D.A. 1998. Distribution of *Cicadella lasiocarpae* Ossiannilsson, 1981 in Russia and Belarus (Homoptera: Cicadellidae). *Zoosystematica Rossica*, 7(2): 322.

Cicadella lasiocarpae Oss. is recorded from Russia (Central and Eastern Siberia, Primorsk Terr., Kuril Islands) and Belarus.

D.A. Dmitriev, Zoological Institute, Russian Academy of Sciences, Universitetskaya nab. 1, 199034 St.Petersburg, Russia.

Cicadella lasiocarpae Oss. has been recently described by Ossiannilsson (1981) from Denmark, Sweden and Finland as a species living in very wet bogs on *Carex lasiocarpa*. Owing to its strong resemblance to *Cicadella viridis* L., this species had been misidentified by previous authors. After the description, *Cicadella lasiocarpae* Oss. was recorded from Great Britain and Germany (Le Quesne, 1987; Remane & Fröhlich, 1991; Nickel, 1997). The following material of this species is found in the collection of the Zoological Institute, St.Petersburg: **Belarus:** Gomel' Prov.: 1 ♂, 3 ♀, near Rogachev, VII. 1895 (Neklyudov); **Russia:** Krasnoyarsk Terr.: 1 ♀, Minusinsk, 26.VII.1924 (Filip'ev); Irkutsk Prov.: 1 ♂, 1 ♀, near Irkutsk, 15.VII. 1910 (Prorokov); Chita Prov.: 1 ♀, Chita, 17.IX. 1921 (Sazhin); Yakutia: 61 ♂, 15 ♀, Yakutsk and its environs, 25.VII-12.VIII. 1927 (Moskvin); 1 ♂, 1 ♀, Ust'-Amginskoe, 12.VIII. 1925 (Bianchi); Amur Prov.: 1 ♀, Ulunga, 11.VII.1910 (Mishin); 1 ♂, Andreevka E of Blagoveshchensk; 6.VII.1908 (Solov'ev); 2 ♂, 8 ♀, 150 km NE of Blagoveshchensk, VI-VIII.1910 (Gondatti); Khabarovsk Terr.: 3 ♂, 2 ♀, railway station Ussuri, 18.VII.1911 (P. Somov) and 18.VIII. 1926 (N. Kuznetsov); 4 ♀, outfall of Taba River, Lake Kizi, lower course of Amur River, 3.VIII.1928 (Formozov); Primorsk Terr.: 2 ♀, Dmitrievka, 2.VI.1914 (Emelianov); 27 ♂, 16 ♀, Chernigovka, 20.VI-22.

VIII.1912-1914 (Emelianov); 2 ♀, Slavyanka, 24.VI.1914 (Emelianov); 3 ♂, 2 ♀, Khalkidon, 3.VII.1912 (Emelianov); Kuril Isl.: 3 ♀, Kunashir: Sernovodsk and Yuzhnokuril'sk, 24-28.VIII. 1973 (Kerzhner).

Acknowledgements

I am thankful to Dr. A.F. Emelianov, my scientific adviser. Dr. H. Nickel (Göttingen) kindly informed me about European records of *C. lasiocarpae*. The work was fulfilled using scientific collections of the Zoological Institute, Russian Academy of Sciences, which obtain financial support from the Science and Technology Ministry of the Russian Federation (Reg. No. 98-03-16).
